

Thank you for your interest in our products!

We appreciate it! As you have seen and experienced, LaserMaxx has become one of the major players in laser tag manufacturing. How? By building an extremely durable, inexpensive and above all very modular laser tag system.

Please take a moment to review our pricelist and take a look at our free financing methods and Pay-Per-Play. Feel free to give me a call or even better, send me an email at [marcel@lasermaxx.com](mailto:marcel@lasermaxx.com) with your business proposition. I will also gladly answer any questions you may have.

Naturally, we are very proud about the products we designed and perhaps the best way to understand the quality of our equipment might be simply to meet us... You are always welcome!

Best regards,

Marcel Röhrs  
Owner LaserMaxx Lasergames
