April 16th 2019 – Immediate release

Maxx Entertainment in Vienna to upgrade laser tag to LaserMaxx EVO-6

Locals able to enjoy a complete new laser tag experience

De Bilt, April 16th 2019 – The Roßauer Lände 45 in Vienna is for some years the home of Maxx Entertainment in Vienna. Being a household name and with every intention to remain so for many years to come, the owner has decided to upgrade its current laser tag system to a brand-new LaserMaxx EVO-6 system with new laser tag vests and thus offering a complete new laser tag experience.

LaserMaxx CEO Marcel Röhrs comments: “We are of course over the moon that our loyal customer in Vienna has once again chosen LaserMaxx as its supplier and has upgraded to our most recent EVO-6 system. For years Maxx Entertainment has shown that it lives up to its name by offering an unmatched laser tag experience that locals have so come to enjoy. I truly believe that the combination of Maxx Entertainment’s experience with our most recent laser tag equipment will offer a laser tag experience like never seen before.”

With the location’s upgrade fast approaching, residents of Vienna are welcomed to book a game of laser tag via www.maxx-e.com

Recreation activity

Laser tag is a popular and active recreation activity for groups and parties in which each participant receives a laservest and a lasergun. The goal of the game is to score points by tagging opponents and of course, avoid being tagged. In a laser tag location the game and the player perception receives an impulse by the addition of artistic UV-paintings and light-, sound- and smoke effects.

About LaserMaxx Lasergames

Founded in 1995, Dutch LaserMaxx Lasergames is market leader in professional laser tag equipment. Hosting features such as calorie-tracking, integrated memberships, a reality interface and many more innovations, the laser tag products of LaserMaxx can be played with in more than 350 locations in over 50 countries globally.
